Yillage Corporation Reports.

The corporation reports have been printed and are now in the hands of the voters. Total valuation of real and personal estate as per last report is \$930,921; number of polls, 602; rate of poll tax, \$1.50; property rate, \$3.08 3-5 on a dollar; total amount taxes raised last year, \$24,254 27; total abatements for the year, \$32 45; miscellaneous expenses, \$332.45; expense of fire department, \$2,587.01; cost of lighting, \$1,671.51; night police, \$600.

The resources consist of \$188.01 cash in treasury and \$222 11 on the collector's books. Last year the treasurer had on hand at the beginning of the year, \$1,022 10, while at the end of the year there is only \$188.01 and it will be necessary to raise more money by taxation to meet the expenses this year than last if the expenses remain the same.

Only two fires occurred during the year. A house on Water street owned by Mrs. John Prince was burnt, loss estimated \$200. The 4th of last January the department was called for the burning out of a chimney, no damage to property. There were three still alarms for the year.

The monthly meeting of the Board of Trade will be held at the Engine House on Friday evening, April 8th, at 7:30 o'clock.

Hose Co. No. 3 held the annual meeting Saturday evening at the hose house and reorganized the company. The following officers were elected:

Foreman—Merton Libby.
Asst. Foreman—Augustus Fottle.
Treasurer—George Cole.
Clerk—Arthur Lewis.
Fireman—Chas. H. Pike.
Property man—Morris Klein.
Chief Engineer Hathaway was present at the meeting.

The officers of Oxford Council No. 14, Royal and Select Master were installed Friday evening by Past Master A. W. Walker as follows:

T. L. M.—W. L. Merrill.
D. M.—G. E. McCardle.
P. C. W.—L. M. Smith.
Treas.—H. D. Smith.
Sec.—Charles P. Barnes.
G.—Frank Kimball.
C. O.—Ernest Record.
S.—Geo. F. Eastman.
Sen.—H. E. Mixer.

Bennett-Moulton Co.

The attraction at the Opera House for three days, starting Monday, April 11, will be the popular and always welcome Bennett-Moulton Co. This company has visited our theatre for a great many seasons, and have always given its patrons some really excellent productions at popular prices. This season the management have made special effort to make the plays and acting company the best they have ever had. The play to be given on the opening night will be "The People of the West," and "The People of the East." Vaudeville features will be given during the action of the plays.

Seats for the entire engagement go on sale Saturday morning, at Stone's Drug Store.

VOLUME XLII.

Corporation Meeting Next Monday Evening.

The time for the meeting is promptly at 7 o'clock. There are several interesting articles in the warrant and it is important that the tax payers, should turn and have a hearing at this meeting. A committee to revise corporation-by-laws undoubtedly will be appointed. It is expected that the first steps towards the construction of a sewer for the village will be taken. If you are opposed to it, be there. If in favor of it, be there.

Be there at 7 o'clock, as this is a half-hour earlier than the usual time for calling the meeting. Several street lights are now in line in Norway, a hydrant on Orchard street. The amount of money recommended as being raised by the assessors for the purpose, totals \$5,800.

Charles F. Greenleaf.

Charles F. Greenleaf died at his home below Steep Falls on the afternoon of March 30, 1910, from a disease of the heart. He has been an invalid for over twenty years but for the last three years has been an almost constant sufferer.

He was born in Norway, Sept. 20, 1839, but lived in Massachusetts for many years. He was a soldier in the Civil War, serving in Co. G, 10th Me. Vol. Infantry, and was most intense patriot and loyal sympathy was always for the "old soldiers."

To mourn his loss he leaves a wife, Cora M. W. Greenleaf, and three sisters, two of whom, Mrs. Helen Cherry and Mrs. Mary J. Linnell, live in Norway, while the youngest sister, Flora M. Greenleaf, lives in Sedalia, Mo.

Methodist Church Items.

Next Sunday will be the last Sunday of the Conference year at the Methodist church. It is expected that Rev. B. C. Wentworth will return another year. The church has extended a unanimous vote for him to return.

The Sunday school at the Methodist church is in good condition both financially and for membership. The collection taken last Sunday in March was \$10.23, and the following Sunday \$8.62.

The Ladies' Aid of the Methodist church will meet with Mrs. Elva Buzzell, Thursday afternoon, April 14.

The Epworth League was entertained at the Methodist church Wednesday evening by the pastor, Rev. B. C. Wentworth, with solo by Mrs. Geo. K. Robinson. Mr. Wentworth read some very interesting poems, consisting of humorous, pathetic and serious, many of which were original. A silver collection was taken for benefit of the League. The Queen Esther's opened their mite boxes before the entertainment. The proceeds go to the missionary societies.

Universalist Notes.

The Mission circle will meet with Mrs. M. A. Oxnard next Wednesday afternoon. The program for the afternoon will consist of the study of the History of the Universalist church and a study of the Christian Missions in Japan.

The sewing circle met with Mrs. S. B. Cummings, Wednesday afternoon. The Knights of King Arthur will meet with S. B. Cummings, Saturday evening.

The ladies of the circle are gathering old newspapers and waste paper to fill a car which will be sold to the paper mills and the proceeds will be turned over to the circle.

The members of the Y. P. C. U. are gathering old rubbers, which they will sell, and the money thus earned will be put into the fund to send delegates to the Y. P. C. U. convention, which is to be held in New York City next July.

Rev. M. C. Ward went to West Paris, Wednesday, and attended the funeral of Daniel L. Day, which was held at the Universalist church.

Shoe Shop Stockholders Meeting.

The annual meeting of the stockholders of the Norway Shoe Shop Co. and the Sanborn Shoe Shop Co., was held at Engine House hall last Monday evening. The following officers were elected for both companies:

Pres.—Chas. F. Ridlon.
Clerk—A. J. Stearns.
Treas.—H. D. Smith.
Trustees—C. F. Fobbs, C. M. Smith and Fred Howe, Jr.

Carnegie Library.

The rule by which Mr. Andrew Carnegie gives money for libraries is \$1,000 for every \$100 that the town votes to raise each year. Norway raised \$550 each year now, and that \$550 can get a \$5,500 library, providing a lot can be procured to build on. We need good roads and sewerage and there is no reason why we shouldn't have them with very little extra expense. If the money now voted each year is used wisely, the Carnegie library need not interfere with the good roads and sewerage in the least.

Mildred Bangs went to Boston, Friday. Louise Staples of Rumford Falls, sang at the Congregational church, Sunday.

H. C. Eversett has been working at C. F. Whitman's the past week, repairing and shingling the piazza.

There will be work and refreshments next Wednesday evening, April 13th, at Eyerson Hall.

Mrs. Charles Bradbury and daughter Christen of North Yarmouth came to this place, Monday, to spend the month with relatives here.

Mayflowers are fast blossoming out these warm days and each morning before seven o'clock the young people are out in search of them.

The orchestra is furnishing the music for the dances at the Park, which are well patronized. It is understood that there will be roller skating in the near future.

The school committee met recently, and organized, Wm. F. Jones as president, chairman, and superintendent L. M. Robinson, secretary ex-officio. H. L. Horne was chosen chairman of the Union school committee and Guy E. Dudley of Watford, secretary.

Dr. J. T. Cushing of Turner, who has been spending the winter in Ohio, arrived here Saturday. He spent Sunday with Mrs. John Bradbury and went to his home in Turner, Monday forenoon.

The April meeting of the W. C. T. U., will be with Mrs. Howard Smith, Tuesday afternoon, April 12. All members are requested to make a special effort to be present as matters of importance are to be considered. The membership contest work is one of the subjects to be discussed.

Chas. Higgins is sick with the grippe. Ross D. Bickford is in town for a few days.

R. W. Parker of Portland was in town over Sunday.

Henry Davis is boarding at Mrs. Randall Jordan's.

Jennie Baker went to Boston Monday, on a business trip.

Freaks of Eyesight.

The Human Eye, not Made to Look Upward.

Many eye defects, of course, are due to the bad habits of their possessors. Tobacco, for instance, is generally held to impair their vision, usually injuring the color-sense so that gold and silver become indistinguishable. According to some medical authorities, again, the connection between eye and tooth trouble is more than an old wife's tale.

In his book dealing with the subject, Hancock relates the story of a boy who woke up one morning to find himself blind. On examination, his teeth were discovered to be crowded together, and a few of them were removed; and the result that by evening he could distinguish between light and darkness. More teeth were removed, and the following day his sight was fully restored. Other cases which tend to show the connection between eye and tooth trouble have also been noted, very frequently occurring has much to do with one or other eye defects.

Thus, myopia is sometimes known as the miners' disease. Nystagmus is an involuntary oscillation of the eyeball to and fro or round in its orbit. In contradistinction to glaucoma, it is a young defect, having been noticed in infants, but sometimes it attacks middle-aged men. Miners are inclined to attribute the falling to the bad light, but it is more likely to be caused by the continual upward glance so often necessitated by their occupation. Strand Magazine.

BUCKFIELD.

Streaked Mountain.

James Lewis remains about the same. Walter Records is staying with Mrs. Melissa Winslow.

Frank Records is working for Will Cooper of Norway.

Flora E. Whitman has returned to her school in Farmington.

Arthur Sturtevant has sold his cow to George Elder, of Paris.

John Pettengill and wife, have moved to their farm in Auburn.

Ellis Whitman has bought him a new horse of the Andrews Bros., Norway.

Mrs. Ambrose Swan and grandson, Arthur Sturtevant, have been visiting in Auburn.

EAST SWEDEN.

D. T. Adams and son Millard are making maple syrup.

Fred Adams is working in the mill for Ned Fox at Lovell.

Marr & Adams have been trapping and caught a number of skunks.

We expect business will be lively at the mill now.

There are not as many cords of birch to saw as last year, but a large amount of long timber. Mr. Bisbee got his timber hauling job done except 3 or 4 thousand of peeled hemlock which they had to leave on account of bad roads.

A great many of the Maine dairymen appreciate the value of weighing the milk given by each cow daily, but some have not done this on account of a lack of suitable blanks for the record.

The dairy division of the Maine Department of Agriculture has obtained a supply of blanks which will be furnished to Maine farmers without expense if the farmer will make a report at the end of the year of the monthly totals of the milk given by each cow in his herd.

Application blank will be sent on receipt of a postal card.

Mrs. Lewis Bryant of Foxcroft, after visiting at William Farwell's, has gone to Bethel to be among friends and relatives.

It is a treat to look at the lovely May baskets which Mrs. Mary Needham has made and is making to help support herself. She is tasty and ingenious and can put her hand to most any kind of useful and fancy work.

Mrs. F. E. Needham, widow of the late Frank E. Needham, tells us that he was one of the first to enlist in the Civil War and went from Bethel. He served three years, then reenlisted and served until the close of the war. Mrs. Needham has the Grand Army wreath and badge and cord which was on his hat all arranged in a tasteful artistic way on the old caisson which he used and she has covered it with red felt. His reunion badge is in their Bible. He was in the first Maine cavalry and the badge was buried with him. He was sick a long time and bore his sufferings patiently. He was faithfully cared for by his wife as far as his health would permit. He was 65 years of age and well preserved, of a genial, kind, patriotic nature winning many friends.

The morning of the 18th dawned bright and clear and fine sleighing. 20 members of Eagle grange responded to the invitation from Suncook grange. Arriving at the hall we were warmly welcomed by Brothers and Sisters of the order. Our teams being cared for, we were ushered to the waiting room and directed of our wraps. We then entered the choir hall and at the fall of the Master's gavel, the business of the day began. The third and fourth degrees were conferred.

Not a Drop of Alcohol

What is a "tonic"? A medicine that increases the strength or tone of the whole system. What is an "alterative"? A medicine that alters or changes unhealthy action to healthy action. Name the best "tonic and alterative"? Ayer's Sarsaparilla, the only Sarsaparilla entirely free from alcohol. Ask your own doctor all about it. Never take a medicine doctors cannot endorse.

J. C. Ayer Co., Lowell, Mass.

Without daily action of the bowels poisonous products must be absorbed. Then you have impure blood, biliousness, headache. Ask your doctor about Ayer's Pills for constipation.

NEW SUITS AND COATS

Suits for young and old. Suits for large and small. Don't delay looking them over for they are going fast.

We have just opened another case of new Gingham. Beautiful patterns and colors, 10 and 12 1-2c.

Remember we have good unbleached cotton, 36 in. for 7c, 40 in. for 8c. There is every indication they will be higher.

We are spending two weeks in Boston and New York buying the new things and studying styles.

Our dressmaking rooms will be opened again Tuesday, May 5th, when Miss Z. S. Prince will be pleased to meet old and new patrons.

Sincerely yours,

S. B. & Z. S. PRINCE

The Best Thing About a Bank

A bank which takes deep hold upon the confidence and respect of the people at large is by all odds the proper place for funds when safety is wanted.

Such an institution, and no othersort, is well prepared to weather any and every financial disturbance which may arise in the course of the years.

A bank's strongest advantage is at this point—without it, gold and time locks, stone, brick and big figures are all chaff and sawdust.

Be sure of your money by entrusting the keeping of it to such a bank. The facilities of this bank, of over 38 years uninterrupted service, are at your disposal.

REACH BASE BALL GOODS

The Reach name on base ball goods stands for all that is best in the sporting goods line. The Reach company by an iron-clad guarantee, stand behind their goods and will replace any article of their make bought at this store which is not absolutely perfect. The Reach goods are official for the American League. You can buy at this store exactly the same gloves, bats, mits, etc., that "Ty" Cobb, "Bill" Carrigan and other players are using today. Look at the goods and look at the price and if any other line of goods sold in this vicinity can match them we will have to be shown. I am agent for these goods in Norway.

The list includes: Balls, bats, mits, gloves, protectors, shin pads, heel and toe plates, complete uniforms, score books, the Reach guides, umpire's indicators, in fact everything that goes to make up the great national game.

Look at this Line before you buy Base Ball Goods.
Send your boy to this store for his ball, bat or mit.
You can't buy any better anywhere.

HIRAM

The Red Mill changes owners.
Ezra W. Bosworth has sold his grain mill and business to Seth C. Clemons. The mill which his business was conducted was built in March and April, 1895. Part of the timber which was used in the construction was from the old red mill, which was the first grain mill built in Hiram. If we remember dates, it was built in 1776.
Mr. Bosworth commenced business the following May, 1895, and at the end of the present month would make him fifteen years in the grain business. He has always been respected by his patrons as an honest man to deal with, and very accommodating. He will be missed very much from the place.

Herbert Moulton is painting his buildings.
Arthur Sadler went to Portland, Saturday.

Charles H. Clemons is having an attack of grippe.

Mrs. A. O. Lowell of Cornish, visited her mother, who is sick, Saturday.

Lincoln Cotton, who broke his leg last winter, was taken to the town farm, Saturday.

Albert Howard of Hiram and Edith Black of Baldwin, were united in marriage last week.

Florence and Annie Spring, who have been teaching school, are home on a short vacation.

The ground is quite dry. Farming is near at hand; Brookside Farming commences Monday.

Mrs. Daniel McLucas died of pneumonia, aged 20 years, 11 months, 13 days. She leaves a husband and one child.

Muskrat skins, one dollar apiece, keep all the spare hands trapping. (Col. Clemons, hunter, trapper and guide, moved with his traps to the great bogs, this week.

H. M. Moxey bought three cows and one calf, Saturday.

C. E. Cobb traded for a nice pair of black horses weighing about 3100 pounds.

SOUTH WATERFORD

The Principle Sensation.
The principle sensation of the week is the early arrival of spring weather and fine April days. The ponds are rapidly opening by the thawing of the ice, and the present week will witness the disappearance of the ice, judging the appearance at this writing, April 5th.

The society of birds is quite phenomenal and makes us wonder where the old familiar bird friends are gone. It is, of course too early for some kinds, such as swallows, martins and bobolinks; but where are the song sparrows? Only a few robins have appeared and we have noted one solitary pair of pewees, which have returned to their cozy nest under the eaves of the house.

Valley Road.
Valley Spring Lodge, No. 104, K. of P., held a special meeting on Saturday evening, April 2, in Grange hall, for the counting of the Third Rank on two candidates.

A delegation of thirty brother Knights of Highlander Lodge of Bridport, was present by invitation at Valley Spring Lodge, arriving about 8 o'clock p. m., immediately after which a banquet was served by the ladies belonging to the local lodge.

At the conclusion of the banquet a public meeting was given by the visiting Knights, which, by the intricate character of its evolutions and beautiful manual of arms, impressed all the company of spectators present.

A call to order succeeded the floor drill, and the students then conferred the Third Rank on two candidates. At the conclusion of these ceremonies, a season was spent in fraternal congratulations and pleasant short speeches by members of both lodges, previous to the closing of the pleasant festival, which came at 11 o'clock p. m.

Myron H. Keene of Bridport visits the family of his brother, George H. Keene.

The big piles of cord wood are fast succumbing to the cutting ways of the gasoline driven saw.

Mrs. Zenas Kneeland, daughter and son of Sweden, are guests of Mr. and Mrs. Charles S. Hamlin.

We hear sly hints of the organization of a village improvement society, to be composed of ad managed by ladies.

And Mrs. W. F. Hamlin's new and spacious hot bed for early plants is another conspicuous improvement at the "West End."

Mrs. Edith Haynes, who has been since last autumn the guest of her parents, Mr. and Mrs. W. W. Watson, is visiting for a season at her home, Dr. Harry Watson's, in Haverhill, Mass.

Mrs. Blanche Merrill, who was compelled to take hospital treatment for a serious sickness the first of the winter, has since her return home failed to recuperate her health as expected, and is yet quite an invalid.

Freeman Hapgood's dwelling house has parted with its old style of plumbing and is now ready and under the expert workmanship of Charles Packard appears this week with a handsome projecting cornice, thoroughly modernized. It is a very ornamental change and worthy of notice.

Mrs. Emery Taylor of Stillwater, Nova Scotia, who has been the guest since June last of her two daughters, Mrs. Frank C. Shaw and Mrs. Will Green, took her departure from Mrs. Shaw's on Monday, for her far Eastern home.

Mrs. Taylor is much captivated by the beauties of Waterford, as well as by the social and kindly character of the people she has met during her visit.

The various petitions lately in circulation, under the direction of Granville Fernald in this and neighboring towns were very successful in securing signatures of both women and men citizens.

The prayer of the petition is for an amendment of the National Constitution to enable women to vote. It was numerous signed in Norway Grange, Oxford Co. Pomona, and by citizens of Oxford village, Bolster's Mills and Bridport.

The largest signed petition was that under the personal care and circulation of Mr. Fernald, and comprised South, Central and East Waterford, and a few names from North Waterford, totalling 176 signatures. All the petitions to date numbered about 450 names, representing Waterford, Norway, Oxford, Bolster's Mills and Bridport.

A full canvass of the towns only partially represented, might have gathered several thousand ready and enthusiastic witnesses to the prevalent belief that women do want to vote and that men are "willing."

NORTH WATERFORD.
Rice Neighborhood.
B. W. Rice is working nights at W. H. Kilgore's mill, at Bisbee town.

A. H. Harlow and A. E. Fogg have been at work for him.

EAST STONEHAM

Vaughn Nutter.
Vaughn Nutter died at his home Saturday, March 26, after a short illness of pneumonia. He was but 21 years old. He was born in New Hampshire. His mother died when he was but a few days old and since then his grandmother has cared for him. He has always been a hard working boy, ready and willing to do his share.

Everything was done to comfort him. A trained nurse from Lewiston was called and cared for him. Besides a grandmother, Mrs. Leonard Milliken, he leaves a father, Napoleon Nutter, whom he has not heard from for sixteen years, and two aunts, Mrs. E. R. McAllister and Mrs. J. V. Stevens, besides many friends to mourn their loss.

The hearse was Raymond McAllister, Johnnie Files, Algie McAllister and Willis Warren. The flowers were very beautiful. The funeral was held at the Congregational church, Rev. Mr. Hague officiating. Interment at East Stoneham cemetery.

Our Highways.

The annual County Road meeting held by the State highway commissioners will be held at South Paris at the Court House, Thursday, April 14, at 10 o'clock a. m.

Last year the expenditure on account of State road work amounted to \$278,000 and a total of 80 miles of road was reconstructed, and it is by far the best season's work in point of quality that has yet been done under the auspices of State aid. Indications this year are that an expenditure ranging between \$400,000 and \$450,000 will be made on State road, and it seems to me it is of the greatest importance that we should all have a thorough understanding of the specifications under which this work will be done. These county meetings afford us the one opportunity of the year for all getting together and considering these matters.

The Department is now ready to assist in the investigation and organization of boys' and girls' Agricultural clubs in Maine. Clubs of this kind have been organized in New York, Nebraska and other states with good results. Those interested should write to A. S. Cook, Assistant Dairy Instructor, Augusta, Maine.

"Simplified" Spelling.

The following is an exact copy of a letter received by a young lady who, after visiting for board and residence with a family musically inclined:

"Dear Miss—We think we can suit you with room and board, if you prefer to be where there is music. I play the violin, my wife the organ, my daughter the banjo, my son Henry the guitar and my other son Jim the flute and koronet; while all of us sing gospel hymns, in which we would be glad to have you take part. We play by ear, and when we all get started there is music in the air. Let us know if you want to come here to board."

The enthusiastic woman suffragist, Capt. Granville Fernald of Waterford, now 82, is devoting himself assiduously to getting signers to a petition to Congress asking that the national constitution be so amended as to accord equal suffrage male and female; and has a surprisingly large number of names.

How oft we trouble borrow, And suffer mental pain, Coughing clouds tomorrow, Whilence, no sign of rain, Future gloom foreboding, At night on pillows toss, In fear of overloading, The bridge we do not cross.

The Family Driving Horse.

The family driving horse should be selected with a view to safety rather than to looks and speed. Of course it is desirable that the animal be a good looking and a good traveler as well as safe and gentle, but when it is not possible to obtain such a horse, it is best to select an animal that has a reputation for safety rather than a reputation for any of the other horse virtues but lacking the virtue of safety.

At the present time, with steam and electric railway lines crossing every part of the county and automobiles racing along every country road, a horse that any member of a family can drive with perfect safety at any time and place is a rare article, and anyone owning such an animal can readily find a buyer at a fairly good price. Even light and animals and others not at all noted for good looks but having a reputation for being a family horse that anyone can drive, will usually bring a good price, should the owner be willing to let them go.

However, if owners of a good family horse should consider this point: Will it pay to dispose of the animal? To sell one else and let my family either remain at home or else drive an animal that is not safe at all times? I think the answer to this question, for many, is that a safe family horse should not be for sale.

Women and children cannot safely drive a spirited, lively horse, nor an animal that takes fright at automobiles, steam or electric trains, etc. Many of these such animals, it is true, and they may go through life without ever having any serious accident but all are not so fortunate. Again many women and children are compelled to remain cooped up at home year after year, never daring to go to any place unless there is a man along to do the driving.

If you already own a safe family horse, hold on to it by all means; if you do not own such an animal get one, if you can possibly spare the price.

Stomachs Repaired.

Relieves Distress in Five Minutes—Guaranteed to Cure Indigestion, or Money Back.

Let Mrs. Griffith tell you about Mi-na, the greatest prescription for stomach troubles ever written.

For years I have doctored for acute gastritis, but only received small benefit, and had to be careful what I ate. But, thanks to Mi-na stomach tablets, I can now eat anything. Last Christmas, after partaking of a hearty turkey dinner, I was seized with an attack of acute indigestion, and the doctor worked over me for hours before I got relief. He paid me eight visits before I could say I was well enough to sit up. But since then I have taken Mi-na tablets, and I have not been troubled since. Before using Mi-na I had attacks about every month. Mrs. Ida Griffith, 1213 O St., Washington, D. C., July 5, 1909.

Mi-na stomach tablets are sold by druggists everywhere and at Noyes Drug Store for 50 cents a large box. They are guaranteed to cure indigestion, flatulency, belching, gas, dizziness, biliousness, heaviness, or any stomach ailment.

Catarrh of the Lungs

Threatened Her Life.

Miss Ninette Porter, Braintree, Vermont, writes: "I have been cured by Peruna."

"I had several hemorrhages of the lungs. The doctors did not help me much and would never have cured me. I saw a testimonial in a Peruna almanac of a case similar to mine, and I commenced using it."

"I was not able to wait on myself when I began using it. I gained very slowly at first, but I could see that it was helping me."

"After I had taken it a while I commenced to raise up a stringy, sticky substance from my lungs. This grew less and less in quantity as I continued the treatment."

"I grew more fleshy than I had been for a long time, and now I call myself well."

SOUTH WATERFORD.

Grange.

Bear Mountain Grange had a smaller attendance than usual on Saturday Mar. 26th, but the patrons were all bright and happy. One application for membership was received and referred. A letter was read by the secretary, from the C. S. Grange.

C. S. Stetson, communicating a copy of the resolutions unanimously adopted at the recent session of the National Grange and approved by the State Grange, favoring the establishment of a National health bureau or commission, and urging upon Congress the necessity for the immediate enactment of legislation for this purpose. On motion it was voted to endorse the resolutions of the National and State Granges, and that a committee be appointed by the chair, to draft a set of resolutions agreeably to the recommendation of the State Master to be sent to our Congressman and the United States Senators for this state and to the local newspaper; and Brother Granville Fernald was appointed to serve as said Committee.

After a brief recess, Sister Belle Hapgood, lecturer pro tem, announced the following program of entertainment: Music by choir; reading by Sister Georgie Decker; classical reading by Brother Elias; recitation and a translation. Encore, vocal solo in the original Hotentot, very interesting.

The question for discussion was: How shall farmers increase the products of the farm to keep pace with the increase of population and the demand for food? It was spoken to by Brothers W. K. Hamlin, Saunders, Hapgood Decker and Fernald. One of the speakers advanced the plausible suggestion that a very good way to provide for the hungry millions is to raise more on the farm than is just needed, for our normal population. In other words, make the farm always produce a surplus above the necessities of the family. No debator dissented from that proposition, but several spoke of methods of increasing the dairy and other products of the farm; also with regard to an economical management of the farm.

On motion it was voted that the next meeting be for all day, April 9.

Uncle's System.

How He Keeps His Wife's Vacation With in the Time Limit.

The man who had been married 20 years had the calm expression of untroubled life as he listened to the plaint of his nephew John. "She's been home with her folks more'n two weeks now," John complained. "We haven't been married but two years, and this is the third visit she's made. I'm willing to have her go, but I want the sould come home at the end of a fortnight. But if I write and beg her to hurry, she'll more'n likely stay a few days longer yet, just to show her independence."

"Mum! Did you ever know your aunt Mary to stay away longer'n we expected, whilst you lived with us?" asked this uncle.

"No," said John. "She usually came home a day sooner than she'd promised, I remember."

"Mum!" said his uncle. "Just so. Well, that was the result of my system. She's never known it, but I'll tell you as you seem to be in straits."

"Four or five days before time for her to come home I'd send a kind of a test piece to her. Sometimes 'twould be reminding her if she'd heard the news about one or another. Sometimes 'twould be the news column, chopped off right in the most interesting place. Sometimes I'd refer to a letter I'd had, and not say what 'twas about. There's a lot of such things coming handy when you look for 'em."

"Well, soon as she could get a return mail to me she'd ask about the thing, and tell me to be sure and write more part'ers next day. And somehow or other next day was always so busy I'd just have time for a note, or maybe a postal, saying, 'All well. No news.' And next day I wouldn't have time to write even that much."

"Twas always the day after that she came home; yes, sir, the morning of the day after."

"Now there's a chance for variety in my system. You've got to study the subject of the experiment, so to speak, and adapt the system, but you'll find it'll work, every time, 'less the girl you've got is different from any I ever saw."

How to Prevent Cold.

A physician tells us the following: A cold is the result of a stoppage somewhere of the free circulation of the blood, to which one is first sensitive through a chill. The chill is so slight at times that only the preliminary sneeze warns us that we are in the track of a cold.

One of the first things to do in this case is to inhale three or four deep breaths, expelling the lungs to their full capacity during every time the air as far as possible, then slowly letting it pass out through the nostrils. By doing this, the inflation of the lungs sets the heart into quickened action, and the blood driven with unusual force along its course, entering even the finest veins. This radiates a glow down to the toes and fingers, and sets up a quick reaction against the chill.

The whole effect is to stir the blood and set it in motion as if from rapid exercise. Try this method for cold feet and hands. Keep the blood in rapid action and use the deep-held breaths when the first chill is felt. Teach the children, also, to try this method.

If where it can be done, it is very well to retreat from the moist atmosphere and put on heavier clothing, but the main thing is to keep the life-current moving rapidly.

For cold feet on going to bed, this is better than an artificial foot warmer.

Purest Flour

"Of the various qualities of flour obtained from the same wheat, the lower grades are those most contaminated with grease, dirt, and objectionable bacteria; the freedom of flour from these, increases with its purity."

PROF. WM. JACO, the well-known English chemist.

The purity of William Tell flour is due to the costly equipment and exceptional care to keep the grain and flour clean.

The wheat is stored in hermetically sealed tanks at the big mills of Ansted & Burk Co.

Before grinding, it's cleaned six times.

Neither grain nor flour ever touches anything but the bright, clean surfaces of dust-proof machinery. Even the flour bags are sewed up by machinery.

William Tell comes to you from the mills with all the brilliant bloom that only Ohio wheat can make.

The Paint Problem

Better not buy a paint that you've got to buy more gallons of. Paint costs nothing; but gallons cost money. Gallons cost money three times over.

An Extra Gallon costs what you pay for it. That's once.

It costs as much more when you pay the painter for putting half of it on. That's twice.

It costs the same when you pay him the other half. That's three times, and it isn't worth it.

The paint that takes less gallons and wears the longest is **DEVOL**. Sold only by

The public library question is considerably agitated at present. It is generally known that the library building will be ours for the asking with the agreement to expend 10 per cent. annually as required by M. C. Chapter 1. In reality it will not cost any more than is now expended for its support provided building costs \$5600. The other element is if the town will furnish a building to erect it. Among the lots donated for this purpose are the Whit Park lot near the shoe factory which owned by the town; the Whitcomb lot on Main street; a lot on Deering street also one on Whitman street. D. C. will give a lot on Pleasant street.

The shows at the Opera House, Bennett-Moulton Co. the past week have been well patronized. The play Monday evening was a Daughter of the People. It is a play presenting European life. The plot was a young girl, whose father was a Russian gambler who finally gave away the girl in security of a sum of money, but through the friendship of Norman Ware, she was delivered from the clutches of the villain, all ended well. Tuesday evening play was Blue and Red. This one has been here before and is well liked. The shows have been well patronized. Between acts there were different sketches each night which were out of the ordinary.
